EUROPEAN RESEARCH INFRASTRUCTURE
FOR HERITAGE SCIENCE

WORKSHOP

Research infrastructures and education: the case of heritage science

within the
4th IPERION HS interim meeting
in Ljubljana (SI)
25 October, 2023
14:00-18:00 (local time, CEST)

The case for closer involvement of research infrastructures (RIs) in education has been made repeatedly by ESFRI, claiming that the new ERA requires the development of an “interconnected environment of which RIs are an important element is not restricted only to research, it extends also to other areas like education, innovation, health and others.”¹

While RIs contribute to education by providing specialised training and access to students, it is less clear how the desired “interconnectedness” could be enshrined more deeply in the conceptualisation as well as in the process of education at the level of higher education.

¹ ESFRI: “Roadmap 2021: Strategy report on research infrastructures”, 2021.

The workshop will explore the benefits and challenges associated with the structured involvement of Research Infrastructures in the provision of education.

The **ESFRI White paper** from 2020 puts forward the idea of “knowledge innovation hubs in which RIs are embedded in regional education”.² The notion of “promoting science and scientific careers to young people by stronger structured collaborations between RIs and universities leading to greater mobility and exchange programmes between these sectors” would require **strategic and operational collaboration** and implies the involvement of RIs in the development of educational programmes, e.g. on advisory levels, through staff secondments and other mechanisms, in addition to provision of access for the purpose of student research and provision of specialised training, including hands-on research training.

² ESFRI secretariat: “MAKING SCIENCE HAPPEN: A new ambition for Research Infrastructures in the European Research Area”, ESFRI White Paper 2020

PROGRAMME

14:00 **Workshop start**

14:00-14:10 **Matija Strlič, University of Ljubljana:** Welcome

14:10-14:30 **Jana Kolar, CERIC:** Training and ecosystem development - CERIC's approach

14:30-14:50 **Laura Angeletti, CERIC:** Italian ERIC Forum and RI careers

14:50-15:10 **Sally Chambers, CESAER:** Infrastructures and synergies to help tackle local and global challenges

15:10-15:30 **Break**

15:30-15:50 **Carlo Bianchini, University of Pavia:** Italian Research and Knowledge Infrastructure dedicated to Cultural Heritage

15:50-16:10 **Isidora Stankovic, Universite Paris 1:** Una Europa doctoral program in cultural heritage

16:10-16:30 **Nataša Poklar, University of Ljubljana:** EUTOPIA and Research Infrastructures

16:30-16:50 **Break**

16:50-17:10 **Rocco Mazzeo, University of Bologna:** Conservation science education at University of Bologna

17:10-17:30 **Josep Grau, UCL Institute for Cultural Heritage:** UK EPSRC Centre for Doctoral Training in Heritage Science

17:30-17:50 **Vincent Detalle, Universite Cergy Paris:** The last 5 years of master research trainings supported by "La Fondation des Sciences du Patrimoine" in France

18:00 **Workshop end**

Venue:

Great Senate Hall. University of Ljubljana,
Kongresni trg 12, Ljubljana (SI)
